GLOBAL DIVE\$TMENT DAY

On February 13th and 14th, thousands of people across 5 continents will turn out to take collective action demanding divestment from fossil fuels.

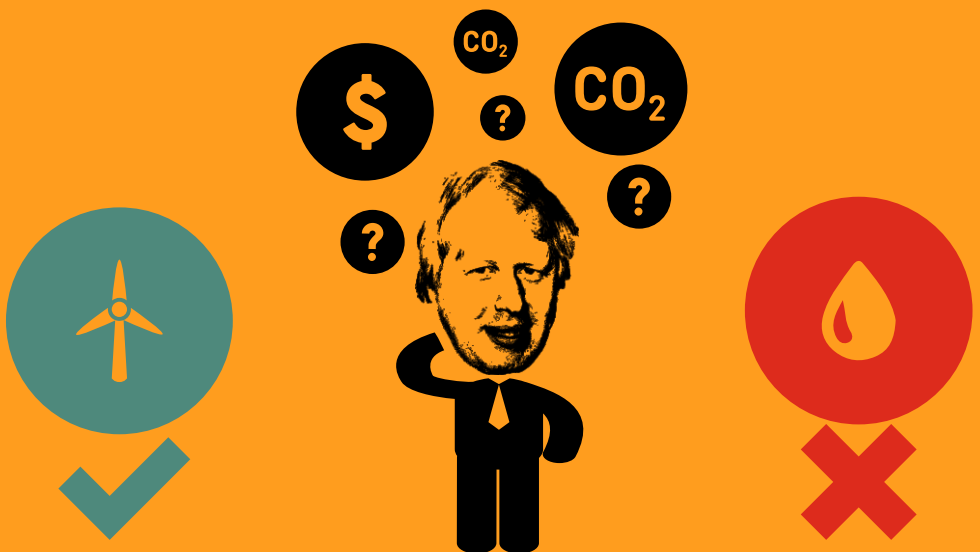

As Londoners we'll be calling on The Mayor and London Assembly to show leadership (and love) this Valentines Day and end City Hall's dangerous relationship with fossil fuels.

While promising high on climate change, their pension fund still invests millions of pounds in fossil fuel companies every year.

Join us at 12.30, Saturday 14th February at City Hall to demand our city goes fossil free.

We'll be hearing from inspiring divestment campaigns, already impacted communities and spelling out our message 'Divest London' loud and clear (bring an umbrella if you can!).

Bring yourselves and your friends, and your best singing voice. Get ready for some fun!
